

Recommendation: WESTERN DISCOVERY Classic or II

The world is at your feet when you tour over the famous 'Highway 1' to San Francisco. During this varied motorcycle trip we cross the famous national parks and enjoy the most beautiful part of Route 66. A journey from the for years still say, 'This was the trip of my life.'

SOMETHING DIFFERENT: WILD WILD WEST

20 years ago, this was the first tour we conducted. We have revised them and they will offer in the coming years in our program. We drive from Los Angeles to El Paso Texas. Temperatures between 20 and 25 degrees, deserted streets, deserts, where once Tombstone Doc Holliday lived, Tucson with the largest airplane graveyard in the world, a visit to the very greatest Harley dealer of the world and much more!
